

**TECHNIQUES FOR USING A CAPTURED IMAGE FOR THE
RETRIEVAL OF RECORDED INFORMATION**

ABSTRACT OF THE DISCLOSURE

A method for determining a recorded presentation information document is provided. The method comprises: receiving information identifying an input image; comparing the input image with a plurality of image file documents to determine an image file document in the plurality of image file documents that includes information that is considered to match the input image; and determining a recorded presentation information document that is associated with the image file document that was determined.
